# Seeking Medical Care

---

If you need to seek medical care, please follow these simple instructions:

## Non-Emergency Care

For immediate care in non-emergency situations, you **SHOULD** go to a Walk-in Clinic, Urgent Care center or local doctor. Urgent Care and Walk-in Clinics are often the best places to seek medical care as you can walk right in and they require no appointment.

You **SHOULD NOT** go to the Emergency Room (ER) for this type of care unless it is a real emergency situation.

## Doctor/Hospital Search

You have the freedom of choice to visit any provider you wish, however you are strongly encouraged to visit medical providers who are part of the insurance plans network. This will allow direct billing and can remove the need for you to pay up front for medical expenses.

Inside the USA - [UnitedHealthcare Network](#)

Outside the USA - [WorldTrips International Network](#)

## Emergency Care

The Emergency Room (ER) is designed for medical emergencies. If you need emergency care for any reason, please get to the nearest Emergency Room (ER) or call the emergency services for immediate treatment.

**PLEASE NOTE** – an additional **\$100** deductible will apply for each Emergency Room visit.

## Prescription Medication

Prescriptions should be filled at any available pharmacy and paid upfront directly to the pharmacy. Please keep copies of all your receipts and the prescription label and submit those to the claims team, along with a completed claim form for processing.

## Telemedicine

Your plan includes access to [AirDoctor virtual telemedicine](#), allowing you to speak with a doctor via video, app, or phone consultation for minor or non-urgent medical needs. You will have a certain number of free visits through AirDoctor, depending on the length of your coverage.
